

Dr. Meltem AKSOY, Assist. Prof.

PhD (ITU), March (ITU), BArch (ITU); assist.prof. at ITU Faculty of Architecture, Istanbul. She has been a visiting scholar in Carnegie-Mellon University / PA between 1999-2001. Dr. Aksoy's research areas focus on logic models of design, generative systems, information technologies and their effects on architectural design theory, practice and education. As a professional she has involved in a number of building designs including "ITU Dr. Sedat Urundul Nursery" (with Gulsun Saglamer), "İTÜ Research Center for Satellite communications and Remote Sensing" (with Hülya Turgut), "ITU Dr. Orhan Ocalgiray Molecular Biology and Genetics Research Center" (with Gulsun Saglamer, Pelin Dursun) and ITU Kindergarten (with Pelin Dursun). Dr. Aksoy has been actively teaching architectural design since 1991 at undergraduate levels and since 2004 graduate levels in ITU Faculty of Architecture.
